Dr Nicola Ward Petty enseigne la statistique à l'Université de Canterbury, Christchurch, NZ. Elle anime le site web [Dr Nic](#) qui se propose de rendre accessible l'analyse statistique à un grand nombre de personnes.

Elle propose maintenant une application sur ipad/iphone

[AtMyPace : Statistics](#)

« Description

AtMyPace : Statistics is now a Universal App so you can use it on your iPhone or iPad. Special price for early adopters.

AtMyPace : Statistics is valuable new and innovative learning tool for all, especially MBA's and students in college business statistics courses.

See all about it here :

AtMyPace : Statistics uses entertaining videos and engaging quiz exercises to help students learn statistics. We help you understand how to use and interpret statistics so you can pass your course. You CAN understand statistics.

“AtMyPace” means you control the pace of your learning. Each topic has a video and quiz exercises that you do at your own speed and repeat as many times as you like. AtMyPace never gets impatient !

The content and design were developed by a teaching-award-winning university professor and based on years of experience, and research into how people learn statistics and the use of multimedia. The teaching approach has been tested and refined through extensive use in an entry-level university course.

AtMyPace is NOT a textbook or a statistics calculator. Rather AtMyPace : Statistics employs the strengths of iPad and iPhone technology to engage students so that they develop understanding of statistical concepts. »
